

**MINUTES OF A REGULAR MEETING OF THE PINEYWOODS
GROUNDWATER CONSERVATION DISTRICT
HELD ON THE 10TH DAY OF SEPTEMBER 2009**

On the 10th day of September, 2009 at 3:00 p.m. in the Nacogdoches City Commission Chambers, Room 119, in the Nacogdoches City Hall at 202 E. Pilar Street, Nacogdoches, Texas, the Board of Directors of the Pineywoods Groundwater Conservation District convened in a regular meeting at which time the following items were discussed and action possibly taken with the following members there of, to wit:

Keith Wright	President
David Alders	Vice President
Keith Weathers	Treasurer/Finance Officer
Gloria Montes	Secretary
Jimmy Mize	Member

being present, and

Kelley Holcomb	Member
Pat Miller	Member

being absent, and

David Alford	General Manager
Lynn Thomas	Administrative Assistant

also present.

1. Call to Order:

With a quorum of board members present, the meeting was called to order at 3:09 p.m. and the invocation was given by President Keith Wright.

2. Approval of the minutes of the meeting of August 13, 2009:

After board review a motion was made to approve the minutes by Jimmy Mize and seconded by David Alders.

The motion passed unanimously.

3. Receive a report from the General Manager concerning the financial position of the District:

Current balance through September 08, 2009 is \$24,192.97. A quarterly report to date was reviewed along with a ledger printout, copies of bills, budget report, and A/R report. The board reviewed and discussed the financials of the District.

4. General Manager's Report

1. **Pending Completion:** We have 10 exempt wells in progress, 4 non-exempt wells in progress and 0 new O&G rig supply wells registered. I have inspected 5 new exempt wells and 3 new non-exempt wells since the last meeting.

Completed Wells:

- **Total Exempt wells in database: 464[214- Nacogdoches Co., 250 - Angelina Co.]**
 - **Total Non-Exempt Ag wells in database: 177 [132- Nacogdoches Co., 45 Angelina Co.]**
 - **Total Oil & Gas supply wells in database: 646[595- Nacogdoches Co., 51- Angelina Co.]**
 - **Total Production fee based wells in database: 178**
 - **Total District wells recorded in databases: 1551**[this includes 86 plugged wells]
2. The Emmett Luman well results were negative for coliform bacteria. We are waiting on a return receipt from him giving him his options.
 3. We have sent out static water level requests to the entities.
 4. The next TAGD meeting is in Dallas September 29 – 30. I will not be attending.
 5. Charts and graphs of usage review.
 6. Glen Cox update: We have not received payment for his permit that expired on July 24, 2009. We have billed him since May 22, 2009, followed up by 2 more notices. We sent the last one certified and gave him 30 days. The deadline ended September 6, 2009. We have been in contact by phone and they do not believe they should pay for a permit. I'm sending it to Tim for further actions.
 7. We purchased a CD for \$10,201.40 at Texas Bank from proceeds of a CD from First Bank & Trust ET.
 8. The next GMA-11 meeting is September 15, 2009 in the City of Nacogdoches Commissioners room.

5. Unfinished Business

a. Review, discuss, and possibly take action on joint funding of DFC study for GMA-11.

The Board discussed the funding issue for the DFC study for GMA-11 and came to the decision that the District should not assist GMA-11 with funding. Vice-President David Alders stated that he felt it was asking the District's constituents for double taxation since Pineywoods GCD has

already set aside funding for the Districts own DFC study. The Board offered to let GMA-11 have access to the data when available.

Following discussion by the Board, the issue died from lack of motion.

5. Unfinished Business

b. Review, discuss, and possibly take action on Investment Policy revisions.

The Board recommended two changes be made to Chapter V. Responsibility and Control as highlighted:

Delegation of Authority [PFIA 2256.005(f)]

In accordance with Chapter 49.1571, Water Code, and the Public Funds Investment Act, the Board designates the General Manager and Board Treasurer as the District's Investment Officers. An Investment Officer is authorized to execute investment transactions on behalf of the District, as approved by the Board. No person may engage in an investment transaction or the management of District funds except as provided under the terms of this Investment Policy as approved by the Board. The investment authority granted to the investing officers is effective until rescinded by the Board.

A motion was made by David Alders to approve the Investment Policy as amended (attachment A); the motion was seconded by Keith Weathers.

The motion passed unanimously.

6. New Business

a. Review and possibly take action for a variance for Taylor McKewen.

After the Board discussed the fact that this request was within the city limits of the City of Lufkin, it was decided that further research was needed in order to come to a decision, particularly in regards to the fact that this well would be shared by three property owners.

Following discussion by the Board, the issue died from lack of motion.

6. New Business

b. Discuss and vote on TML Board of Trustees.

A motion was made by Gloria Montes and seconded by Jimmy Mize to vote for the one candidate on the ballot, Joseph Arisco - Councilmember, City of Groves for the Board of Trustees TML Region 16.

The motion passed unanimously.

7. Announcement of the date and location of the next meeting of the District Board of Directors:

President Keith Wright announced the next meeting date and time to be October 8, 2009 at 3:00 pm, at Lufkin City Hall.

8. Adjourn:

The meeting was adjourned by the President, Keith Wright at 4:21 p.m.

Keith Wright, President

Gloria Montes, Secretary

PINEWOODS GROUNDWATER CONSERVATION DISTRICT INVESTMENT POLICY

I. POLICY

It is the policy of the Pineywoods Groundwater Conservation District (District) that after allowing for the anticipated cash flow requirements of the District and giving due consideration to the safety and risk of investment, all available funds shall be invested in conformance with these legal and administrative guidelines seeking to optimize interest earnings.

Effective cash management is recognized as essential to good fiscal management. Investment interest is a source of revenue to District funds. The District's investment portfolio shall be designed and managed in a manner designed to maximize this revenue source, to be responsive to public trust, and to be in compliance with legal requirements and limitations.

Investments shall be made with the primary objectives of:

- * Safety and preservation of principal
- * Maintenance of sufficient liquidity to meet operating needs
- * Public trust from prudent investment activities
- * Optimization of interest earnings on the portfolio

II. PURPOSE

The purpose of this investment policy is to comply with Chapter 36, Water Code, and Chapters 2256 and 2257, Government Code, ("Public Funds Investment Act" and "Public Funds Collateral Act," respectively), which requires each District to adopt a written investment policy regarding the investment of its funds and funds under its control. The Investment Policy addresses the methods, procedures and practices that must be exercised to ensure effective and judicious fiscal management of the District funds.

III. SCOPE

This Investment Policy shall govern the investment of all financial assets of the District. These funds are accounted for in the District's Comprehensive Annual Financial Report (CAFR) and include:

- General Fund
- Special Revenue Funds
- Capital Projects Funds
- Enterprise Funds

- Trust and Agency Funds, to the extent not required by law or existing contract to be kept segregated and managed separately
- Debt Service Funds, including reserves and sinking funds, to the extent not required by law or existing contract to be kept segregated and managed separately
- Any new fund created by the District, unless specifically exempted from this Policy by the Board of Directors (Board) or by law.

Investment income will be allocated to the various funds based on their respective participation and in accordance with generally accepted accounting principles.

This Investment Policy shall apply to all transactions involving the financial assets and related activity for all the foregoing funds. This policy does not apply to the assets administered for the benefit of the District by outside agencies under deferred compensation programs.

IV. INVESTMENT OBJECTIVES

The District shall manage and invest its cash with four primary objectives, listed in order of priority: safety, liquidity, public trust, and yield, expressed as optimization of interest earnings. The safety of the principal invested always remains the primary objective. All investments shall be designed and managed in a manner responsive to the public trust and consistent with state and local law.

The District shall maintain a comprehensive cash management program, which includes collection of account receivables, vendor payments in accordance with invoice terms, and prudent investment of available cash. Cash management is defined as the process of managing monies in order to insure maximum cash availability and maximum earnings on short-term investment of idle cash.

Safety [PFIA 2256.005(b)(2)]

Safety of principal is the foremost objective of the investment program. Investments shall be undertaken in a manner that seeks to ensure the preservation of capital in the overall portfolio. The objective will be to mitigate credit and interest rate risk.

- Credit Risk and Concentration of Credit Risk – The District will minimize credit risk, the risk of loss due to the failure of the issuer or backer of the investment, and concentration of credit risk, the risk of loss attributed to the magnitude of investment in a single issuer, by:
 - Limiting investments to the safest types of investments;
 - Pre-qualifying the financial institutions and broker or dealers with which the District will do business; and
 - Diversifying the investment portfolio so that potential losses on individual investments will be minimized.

- Interest Rate Risk – the District will manage the risk that the interest earnings and the market value of investments in the portfolio will fall due to changes in general interest rates by limiting the maximum weighted average maturity of the investment portfolio to 365 days. The District will, in addition,;

- Structure the investment portfolio so that investments mature to meet cash requirements for ongoing operations, thereby avoiding the need to liquidate investments prior to maturity.
- Invest operating funds primarily in certificates of deposit, shorter-term securities, money market mutual funds, or local government investment pools functioning as money market mutual funds.
- Diversify maturities and staggering purchase dates to minimize the impact of market movements over time.

Liquidity [PFIA 2256.005(b)(2)]

The investment portfolio shall remain sufficiently liquid to meet all operating requirements that may be reasonably anticipated. This is accomplished by structuring the portfolio so that investments mature concurrent with cash needs to meet anticipated demands. Because all possible cash demands cannot be anticipated, a portion of the portfolio will consist of securities with active secondary or resale markets.

Public Trust

All participants in the District’s investment process shall seek to act responsibly as custodians of the public trust. Investment officers must avoid any transaction that might impair public confidence in the District’s ability to govern effectively.

Yield (Optimization of Interest Earnings) [PFIA 2256.005(b)(3)]

The investment portfolio shall be designed with the objective of attaining a market rate of return throughout budgetary and economic cycles, taking into account the investment risk constraints and liquidity needs. Return on investment is of secondary importance compared to the safety and liquidity objectives described above.

V. RESPONSIBILITY AND CONTROL

Delegation of Authority [PFIA 2256.005(f)]

In accordance with Chapter 49.1571, Water Code, and the Public Funds Investment Act, the Board designates the *General Manager* and *Board Treasurer* as the District’s Investment Officers. An Investment Officer is authorized to execute investment transactions on behalf of the District, as approved by the Board. No person may engage in an investment transaction or the management of District funds except as provided under the terms of this Investment Policy as approved by the Board. The investment authority granted to the investing officers is effective until rescinded by the Board.

Quality and Capability of Investment Management [PFIA 2256.005(b)(3)]

The District shall provide periodic training in investments for the designated investment officers and other investment personnel through courses and seminars offered by

professional organizations, associations, and other independent sources in order to insure the quality and capability of investment management in compliance with the Public Funds Investment Act.

Training Requirement (Chapter 49.1571)

The investment officer of a District shall attend a training session of at least six hours of instruction relating to investment responsibilities under Chapter 2256, Government Code, not later than the first anniversary of the date the officer takes office or assumes the officer's duties. The investment officer shall attend at least four hours of additional investment training on or before the second anniversary of the last training session the officer attended. The investment training session shall be provided by an independent source approved by the Board. For purposes of this policy, an "independent source" from which investment training shall be obtained shall include a professional organization, an institution of higher education or any other sponsor other than a business organization with whom the District may engage in an investment transaction. The following organizations are specifically authorized as independent sources for training:

- Texas Alliance of Groundwater Districts
- Texas Water Conservation Association
- Association of Water Board Directors
- University of North Texas, Center for Public Management
- William P. Hobby Center for Public Service at Texas State University
- Texas Rural Water Association

Training under this section must include education in investment controls, security risks, strategy risks, market risks, diversification of investment portfolio, and compliance with Chapter 2256, Government Code.

Internal Controls (Best Practice)

The General Manager is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the entity are protected from loss, theft, or misuse. The internal control structure shall be designed to provide reasonable assurance that these objectives are met. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

Accordingly, the General Manager shall establish a process for annual independent review by an external auditor to assure compliance with policies and procedures. The internal controls shall address the following points:

- Control of collusion.
- Separation of transactions authority from accounting and record keeping.
- Custodial safekeeping.
- Avoid physical delivery of securities.
- Clear delegation of authority to subordinate staff members.

- Written confirmation for telephone (voice) transactions for investments and wire transfers.
- Development of a wire transfer agreement with the depository bank or third party custodian.

Prudence (PFIA 2256.006)

The standard of prudence to be applied by the Investment Officer shall be the “prudent investor” rule:

“Investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as the probable income to be derived.”

In determining whether an Investment Officer has exercised prudence with respect to an investment decision, the determination shall be made taking into consideration:

- The investment of all funds, or funds under the District’s control, over which the officer had responsibility rather than a consideration as to the prudence of a single investment; and
- Whether the investment decision was consistent with the written approved investment policy of the District.

Indemnification (Best Practice)

The Investment Officer may not be held personally responsible for a specific investment’s credit risk or market price changes as long as the officer acted in accordance with written procedures and exercised due diligence, provided that the officer reports these deviations immediately and the appropriate action is taken to control adverse developments.

Ethics and Conflicts of Interest [PFIA 2256.005(i)] and [Water Code 49.199(a)(1)]

Officers and employees involved in the investment process shall refrain from personal business activity that would conflict with the proper execution and management of the investment program, or that would impair their ability to make impartial decisions. Employees and Investment Officers shall disclose any material interests in financial institutions with which they conduct business. They shall further disclose any personal financial or investment positions that could be related to the performance of the investment portfolio.

An Investment Officer of the District who has a personal business relationship with an organization seeking to sell an investment to the District shall file a statement disclosing that personal business interest. An Investment Officer who is related within the second degree by affinity or consanguinity to an individual seeking to sell an investment to the District shall file a statement disclosing that relationship. A statement required under this subsection must be filed with the Texas Ethics Commission and the District Board.

VI. SUITABLE AND AUTHORIZED INVESTMENTS

Portfolio Management

The District has a “buy and hold” portfolio strategy. Maturity dates are matched with cash flow requirements and investments are purchased with the intent to be held until maturity. However, investments may be liquidated prior to maturity for the following reasons:

- An investment with declining credit may be liquidated early to minimize loss of principal.
- Cash flow needs of the District require that the investment be liquidated.

Authorized Investments [PFIA 2256.005(b)(4)(A)]

District funds governed by this policy may be invested in the instruments described below, all of which are authorized by Chapter 2256 of the Government Code (Public Funds Investment Act). Investment of District funds in any instrument or security not authorized for investment under the Act is prohibited.

1. Obligations of the United States of America, its agencies and instrumentalities.
2. Certificates of Deposit issued by a depository institution that has its main office or a branch office in Texas. The certificate of deposit must be guaranteed or insured by the Federal Deposit Insurance Corporation or the National Credit Union Share Insurance Fund. Any funds held in excess of the amount insured shall be secured by obligations in a manner and amount as provided by law.
3. Certificates of Deposit obtained through a depository institution that has its main office or a branch office in Texas and that contractually agrees to place the funds in federally insured depository institutions in accordance with the conditions prescribed in Section 2256.010(b) of the Public Funds Investment Act.
4. Money Market Mutual funds that: 1) are registered and regulated by the Securities and Exchange Commission, 2) have a dollar weighted average stated maturity of 90 days or less, 3) seek to maintain a net asset value of \$1.00 per share, and 4) are rated AAA by at least one nationally recognized rating service.
5. Local government investment pools, which 1) meet the requirements of Chapter 2256.016 of the Public Funds Investment Act, 2) are rated no lower than AAA or an equivalent rating by at least one nationally recognized rating service, and 3) are authorized by Board resolution.
6. A local government investment pool created to function as a money market mutual fund if the pool 1) marks its portfolio to the market daily and, 2) to the extent reasonably possible, stabilizes at \$1.00 net asset value.

All prudent measures will be taken to liquidate an investment that is downgraded to less than the required minimum rating. (PFIA 2256.021)

VII. INVESTMENT PARAMETERS

Maximum Maturities [PFIA 2256.005(b)(4)(B)]

It is the District's policy to concentrate its investment portfolio in shorter-term securities in order to limit principal risk caused by changes in interest rates.

The District attempts to match its investments with anticipated cash flow requirements. Unless matched to a specific cash flow, the District will not directly invest in securities maturing more than one (1) year from the date of purchase; however, the above described obligations, certificates, or agreements may be collateralized using longer dated investments. Because no secondary market exists for repurchase agreements, the maximum maturity shall be 120 days. For flexible repurchase agreement for bond proceeds, the maximum maturity shall be determined in accordance with project cash flow projections and the requirements of the governing bond ordinance.

The composite portfolio will have a weighted average maturity of 180 days or less. This dollar-weighted average maturity will be calculated using the stated final maturity dates of each security. [PFIA 2256.005(b)(4)(C)]

Diversification [PFIA 2256.005(b)(3)]

The District recognizes that investment risks can result from issuer defaults, market price changes or various technical complications leading to temporary illiquidity. Risk is controlled through portfolio diversification that shall be achieved by the following general guidelines:

- Limiting investments to avoid overconcentration in investments from a specific issuer or business sector;
- Limiting investments that have higher credit risks (example: commercial paper);
- Investing in investments with varying maturities; and

The following maximum limits, by instrument, are established for the District's total portfolio:

1. U.S. Treasury Securities 100%
2. Agencies and Instrumentalities 85%
3. Certificates of Deposit 100%
4. Money Market Mutual Funds 50%
5. Authorized Pools 50%

VIII. SELECTION OF BANKS AND DEALERS

Depository (Water Code 49.156)

At least every five years a Depository shall be selected by order or resolution through the District's banking services procurement process, which may include a formal request for proposal (RFP). The selection of a depository will be based on the following selection criteria:

- The ability to qualify as a depository for public funds in accordance with state law.
- The ability to provide requested information or financial statements for the periods specified.
- The ability to meet all requirements in the banking RFP.
- Complete response to all required items on the bid form
- Lowest net banking service cost, consistent with the ability to provide an appropriate level of service.
- The credit worthiness and financial stability of the bank.

Authorized Brokers/Dealers (PFIA 2256.025)

The District shall annually review, revise, and adopt a list of qualified brokers or dealers and financial institutions authorized to engage in securities transactions with the District. Those firms that request to become qualified bidders for securities transactions will be required to provide: 1) a completed broker or dealer questionnaire that provides information regarding creditworthiness, experience and reputation; and 2) a certification stating the firm received, read and understood the District's investment policy and agrees to comply with that policy. Authorized firms may include primary dealers or regional dealers that qualify under Securities & Exchange Commission Rule 15C3-1 (Uniform Net Capital Rule), and qualified depositories. All investment providers, including financial institutions, banks, money market mutual funds, and local government investment pools, must sign a certification acknowledging that the organization has received and reviewed the District's investment policy and that reasonable procedures and controls have been implemented to preclude investment transactions that are not authorized by the District's policy. [PFIA 2256.005(k-l)]

Competitive Bids (Best Practice)

It is the policy of the District to require competitive bidding for all individual security purchases and sales except for: 1) transactions with money market mutual funds and local government investment pools; and 2) treasury and agency securities purchased at issue through an approved broker or dealer or financial institution.

Delivery vs. Payment [PFIA 2256.005(b)(4)(E)]

Securities shall be purchased using the "delivery vs. payment" method with the exception of investment pools and mutual funds. Funds will be released after notification that the purchased security has been received.

IX. CUSTODIAL CREDIT RISK MANAGEMENT

Safekeeping and Custodian Agreements (Best Practice)

The District shall contract with a bank or banks for the safekeeping of securities either owned by the District as part of its investment portfolio or held as collateral to secure demand or time deposits. Securities owned by the District shall be held in the District's name as evidenced by safekeeping receipts of the institution holding the securities.

Collateral for deposits will be held by a third party custodian designated by the District and pledged to the District as evidenced by safekeeping receipts of the institution with which the collateral is deposited. Original safekeeping receipts shall be obtained. Collateral may be held by the depository bank's trust department, a Federal Reserve bank or branch of a Federal Reserve bank, a Federal Home Loan Bank, or a third party bank approved by the District.

Collateral Policy (PFCA 2257.023)

Consistent with the requirements of the Public Funds Collateral Act, it is the policy of the District to require full collateralization of all District investments and funds on deposit with a depository bank, other than investments, which are obligations of the U.S. government and its agencies and instrumentalities. In order to anticipate market changes and provide a level of security for all funds, the collateralization level will be 102% of market value of principal and accrued interest on the deposits or investments less an amount insured by the FDIC. At its discretion, the District may require a higher level of collateralization for certain investment securities. Securities pledged as collateral shall be held by an independent third party with whom the District has a current custodial agreement. The General Manager is responsible for entering into collateralization agreements with third party custodians in compliance with this Policy. The agreements are to specify the acceptable investment securities for collateral, including provisions relating to possession of the collateral, the substitution or release of investment securities, ownership of securities, and the method of valuation of securities. A clearly marked evidence of ownership (safekeeping receipt) must be supplied to the District and retained. Collateral shall be reviewed at least monthly to assure that the market value of the pledged securities is adequate.

Collateral Defined

The District shall accept only the following types of collateral:

- Obligations of the United States or its agencies and instrumentalities.
- Direct obligations of the state of Texas or its agencies and instrumentalities.
- Collateralized mortgage obligations directly issued by a federal agency or instrumentality of the United States, the underlying security for which is guaranteed by an agency or instrumentality of the United States.
- Obligations of states, agencies, counties, cities, and other political subdivisions of any state rated as to investment quality by a nationally recognized rating firm not less than A or its equivalent with a remaining maturity of ten (10) years or less.

- A surety bond issued by an insurance company rated as to investment quality by a nationally recognized rating firm not less than A.
- A letter of credit issued to the District by the Federal Home Loan Bank.

Subject to Audit

All collateral shall be subject to inspection and audit by the General Manager or the District's independent auditors.

X. PERFORMANCE

Performance Standards [Water Code 49.199(a)(3)(B)]

The District's investment portfolio will be managed in accordance with the parameters specified within this policy. The portfolio shall be designed with the objective of obtaining a rate of return through budgetary and economic cycles, commensurate with the investment risk constraints and the cash flow requirements of the District.

Performance Benchmark (Best Practice)

It is the policy of the District to purchase investments with maturity dates coinciding with cash flow needs. Through this strategy, the District shall seek to optimize interest earnings utilizing allowable investments available on the market at that time. Market value will be calculated on a quarterly basis on all securities owned and compared to current book value. The District's portfolio shall be designed with the objective of regularly meeting or exceeding the average rate of return on U.S. Treasury Bills at a maturity level comparable to the District's weighted average maturity in days.

XI. REPORTING (PFIA 2256.023)

Methods

The Investment Officer shall prepare an investment report on a quarterly basis that summarizes investment strategies employed in the most recent quarter and describes the portfolio in terms of investment securities, maturities, and shall explain the total investment return for the quarter.

The quarterly investment report shall include a summary statement of investment activity prepared in compliance with generally accepted accounting principals. This summary will be prepared in a manner that will allow the District to ascertain whether investment activities during the reporting period have conformed to the Investment Policy. The report will be provided to the Board. The report will include the following:

- A listing of individual securities held at the end of the reporting period.
- Unrealized gains or losses resulting from appreciation or depreciation by listing the beginning and ending book and market value of securities for the period.

- Additions and changes to the market value during the period.
- Average weighted yield to maturity of portfolio as compared to applicable benchmark.
- Listing of investments by maturity date.
- Fully accrued interest for the reporting period
- The percentage of the total portfolio that each type of investment represents.
- Statement of compliance of the District's investment portfolio with state law and the investment strategy and policy approved by the Board.

An independent auditor will perform a formal annual review of the quarterly reports with the results reported to the governing body [*PFIA 2256.023(d)*].

Marking to Market [*PFIA 2256.005(b)(4)(D)*]

Market value of all securities in the portfolio will be determined on a quarterly basis. These values will be obtained from a reputable and independent source and disclosed to the governing body quarterly in a written report.

XII. INVESTMENT POLICY ADOPTION [*PFIA 2256.005(e)*]

The District's investment policy shall be adopted by resolution of the Board. It is the District's intent to comply with state laws and regulations. The District's investments policies shall be subject to revisions consistent with changing laws, regulations, and needs of the District. The Board shall review the policy annually and approve any changes or modifications.
